Portraiture Options 2010

If you are looking to have photographs taken either in the comfort of your own home, in a pleasant outdoor surrounding, or even in a fitted studio, then I can offer something that will suit your needs.

The sessions will last up to an hour and will be an enjoyable experience in a relaxed environment.

As with all my work I will try to get to know a little bit about you first so I can think about how to best photograph you to get the best possible results. This will also help you to relax especially if you are nervous in front of a camera.

The photographs can be taken using different styles, poses, lighting and backgrounds. These can be colour, black & white or even sepia. Proofs will then be produced and posted to you. This will give you time to casually view and choose your desired images. One 10"x8" is included in the price of the session.

Images can also be enhanced or manipulated digitally if any special effects are required. Plus, there is the option to purchase additional prints from the shoots and you can even buy a CD of all the photographs.

Please see the following pages for the various portraiture options I currently offer.

For pricing please see the last page of this brochure.

IN THE STUDIO

I have a studio in my home fitted with lights and backdrops with a range of different colours, hopefully to suit all individuals.

I can do head shots, individual, family or group portraits in a comfortable environment.

I will talk to you briefly about what you are looking for in the session and what is possible to achieve.

I will take a selection of photographs using different backdrops and poses (if required). Proofs will then be produced and posted to you. This will give you time to casually view and choose your desired images. One 10"x8" is included in the price of the session.

You will also have the option to buy additional prints and purchase a CD of all your photographs, in high resolution.
